NO, TOO MANY FLIGHT ISSUES, CANT GET IT TO ADJ TO NEW EXPENSIVE FLIGHT CONTORLER.. Pro: Easy to learn game, free to start. music is nice, small download, quick to uninstall

Cons : Generic cards / mobs, nothing visually spectacular (no FX or anything), pay to get anything good, many of the game mechanics are unbalanced (some are pointless, others are overpowered).

Fun pro-tip : If you do want to play this sh*tfest (and why would you?) and want to win constantly, just have cheap monsters that makes the other lose spellpower (amount of mana gained per round) upon summoning. If he can't cast anything, he can't win. It's a cheap way to win thanks to no limitations in mechanics.... money money money

But seriously, if you like economics in the slightest, and like simulation games, there is a good chance you'd like this game. The only thing I didn't like about it is that the best way to make money is with the Department store, everything else will become a money drain if you don't do it exactly right. Also the CPU, even on easy, will do a million things a minute and all at once, so when a new city come up, they already have 5 stores making profits within seconds. And because of this fact it will almost always have them making billions within 20 minutes, while you will be crawling to get through the millions. At least that's how it went everytime I played it. Only have 6 hours so far, got this game on sale for like \$1.57. Was expecting to get bored after the first level, but after an hour and getting #1 on the first level I knew this game was def worth the price. Controls are very good, I know this because I am average at every game I play but am somehow good at this one. People are saying the controls are laggy but I haven't noticed it. I don't think there was an option to change sensitivity but for me it's already pretty much perfect. The one biggest problem with this game is Motion Blur, there's no option to toggle it off for some reason (MiniLadd had the same problem too). Besides that the game runs smoothly and all the other options are fine. I was never really big on speed running, but running through these levels and getting top 3 is actually really fun and satisfying.

For anybody with a few extra bucks in their account like me, it's definitely worth it, even more so when it's on sale.

A vid of me playing it:

https://youtu.be/8yaug_Z0Jhw. The gameplay is really bad, hit handbrake once and car goes full angle with little adjustment abilities.

- The control settings are also terrible, kept getting a signal on one of my joysticks all the time so was hard to set controls.

- Know I only played 16 minutes, but you really don't need much time to see the problems here,

- Shame the game is bad as I was hyped for a Tokyo Drift/NFS underground like game.

CAR X DRIFT ONLINE IS A MUCH BETTER CHOISE FOR A DRIFT SIMULATOR.

I can not play!!!!!!!!!!!!!!F!!! you!!!!!!!!!!!!!!

Unable to retrieve additional components required for playback to try again, Please re-play video.. I love the first person view!

The combat is all very standard, but seems to have a number of issues with damage.

I never quite felt like I was in any actual danger. Intended, or not?

The fighting felt like a slog, given the lack of threat.

The 2d art is hilariously mismatched with the 3d first person view, but I kind of liked it.

Overall, I think the game lacks direction. However, if you want an RPGmaker style game, with a first person view...this is the game for you.

<https://www.youtube.com/watch?v=NBahAcqLbps>. Rabbits. GARBAGE level. Yeah. I paid one cent for this and 10 other games. I spent too much.. Fun and simple game, good for passing time.. Beat this game in 1min 52s. LOL. With 58min 08s time left. ROFL G4me to eZy.
